

AHP 700-L Battery powered hydraulic pump, 700 bar

- ▶ Compact and lightweight design for mobile use
- ▶ High capacity

Characteristics

- Select programme from crimping, cutting, and punching
- Housing from impact-resistant, fibreglass reinforced polyamide
- Large display for monitoring, diagnostics and setting the pump
- Two powerful, high-capacity Li-lon batteries
- Automatic retraction when operation is complete
- Manual retract stop with "teach-in" (MRS+) for positioning control for multiple crimps
- Remote control with cable for easy operation of the battery-operated pump
- Maintenance display via LED
- All hydraulic hoses have coupling plug and coupling sleeve, oil filled
- High wearing comfort with padded shoulder strap

Suitable for

- Operates all single-acting Klauke crimping, cutting and punching tools with 700 bar operating pressure
- The connection to busbar machining centre
- The punching of busbars in conjunction with the LSK 120 with adapter CMGSK

Additional information

Also available in country-specific variants, Part Number appendix "C"

Battery voltage 18 V Battery capacity 2 x 4.0 Ah, Li-lon Charging time 22 min. Weight incl. battery (with two batteries) approx. 6.4 kg Ambient temperature -12 °C to +40 °C Operating pressure max. 700 bar Max. oil volume; approx. 800 ml Dimensions L x W x H: 330 x 160 x 280 mm Item Part No. Battery powered hydraulic pump, 700 bar AHP700L Scope of supply Part No. Quantity Page Makita battery 18 V / 4.0 Ah, Li-lon RAL40 2 484 Makita quick-charger for 18 V Li-lon battery LGL1 1 486 Hydraulic hose, 2 m, oil filled HSOEL2 1 489
